**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### DETAILED ACTION

(1). Applicants' Amendments and Remarks filed on June 16, 2006 have been received and acknowledged.

Claim 1 is amended. Claims 5-7 are newly added.

The rejections of claims 1-4 in the prior Office Action dated March 16, 2006 is sustained and presented with rejection of claims 5-7 in the succeeding paragraphs.

### *Claim Rejections - 35 USC § 103*

(2). The text of those Section Title 35 U. S. Code not included in this Office Action can be found in the prior Office Action dated March 16, 2006.

(3). **Claims 1 ~ 4, 6 ~ 7** are rejected under 35 U.S.C. 103(a) as being unpatentable over Fukuda et al (US006040400A) in view of Maxson et al (US005665794A).

(4). The same rationale of rejection for claims 1-4 is recited in the prior Office Action dated March 16, 2006.

(5). As to limitation of **claim 6**, Maxson et al (US005665794A) disclose the substituent  $R^f$  being a perfluoroalkylethyl radical and the perfluoroalkyl portion of  $R^f$  can contain from one to about 10 carbon atoms.  $R^f$  can be, for example, perfluoromethyl, perfluoroethyl, perfluorobutyl and perfluorooctyl. Preferred is when  $R^f$  is 3,3,3-trifluoropropyl (Col. 3, line 9-15). The 3,3,3-trifluoropropylethyl radical meets the  $CF_3(CF_2)_xCH_2CH\cdot$  where  $x = 0$ .

As to limitation of **claim 7**, Fukuda et al disclose the amount of the organosilicon compound to be mixed such that the hydrosilyl groups, or SiH groups, contained in the component are preferably 0.2 to 2.0 mole per mol of aliphatic unsaturated groups such as vinyl group (Col. 8, line 34-38).

### *Allowable Subject Matter*

(6). **Claim 5** is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

### ***Response to Arguments***

Applicant's arguments filed on June 16, 2006 have been fully considered but they are not persuasive.

Applicants' main issue is both the component (A) and component (B) in the instant claim 1 are now limited by "consisting of" to exclude other components such as component B of prior reference Fukuda et al (US006040400) and the other alkylhydrogensiloxane crosslinker of prior art reference Maxson et al (US005665794A). Therefore, the combined teaching of Maxson et al (US005665794A) and Fukuda et al (US006040400A) would not meet the inventive subject as claimed by applicants. However, the word "comprising" recited in the claim 1 is open language allowing other uncited components in the curable fluoropolyether composition as claimed by applicants.

As to the 2<sup>nd</sup> issue that the product Fukuda et al (US006040400A) is gel, not rubber, however, the combined teaching of Fukuda et al (US006040400A) and Maxson et al (US005665794A) meets the requirements of instant claim 1, therefore, it is reasonable to believe that the product of combined teaching would be a rubber.

Presently, claims 1-7 are pending.

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

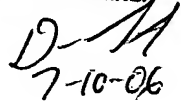

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
